

JURIS DOCTOR (J.D.)

Overview

Our reimagined J.D. program merges theory, doctrine, and experiential learning to produce practice-ready lawyers. Our 1L curriculum introduces both lawyering skills and extra-legal competencies. Then, your upper-level “The Lawyer As…” curriculum begins to shape your career with a concentrated focus on specific areas of legal practice. Courses are taught by a full-time faculty with extensive practice experience, along with sitting judges and practicing attorneys.
