## INSTITUTIONAL RESEARCH GRADUATE CREDIT CERTIFICATE PROGRAM

## **Learning Outcomes**

- 1. Apply "issues intelligence" within a higher education context to address institutional research needs.
- 2. Review institutional research requests and needs to determine which role groups internal and external must be involved.
- 3. Analyze data and available information to suggest solutions to institutional needs.
- 4. Interrogate data and related graphs/figures presented at meetings and to the broader higher education community about assumptions made, sample and population, analyses, and potential responses and uses for certain student and faculty.
