

# INFORMATION AND COMMUNICATION TECHNOLOGIES FOR DEVELOPMENT GRADUATE MINOR

---

<b>Minor Graduate Program Head</b>	Krishna Jayakar
<b>Program Code</b>	ICT4D
<b>Campus(es)</b>	University Park
<b>The Graduate Faculty</b>	View ( <a href="https://secure.gradsch.psu.edu/gpms/?searchType=fac&amp;prog=ICT4D">https://secure.gradsch.psu.edu/gpms/?searchType=fac&amp;prog=ICT4D</a> )

The inter-college graduate minor in ICT4D provides doctoral and master's students with exposure to the multidisciplinary theoretical and methodological foundations of ICT4D and opportunities for scholarly engagement with communities of practice in the discipline. It will challenge students to simultaneously develop new concepts, theories, and methods for the study of ICT4D, and to apply this knowledge to socially relevant projects and programs.

The ICT4D Consortium will provide organizational support for the proposed graduate minor. The Consortium currently includes faculty from the Colleges of Agriculture, Business, Communication, and Information Sciences and Technology. Courses for the minor are drawn from these colleges, the College of Engineering and the School of International Affairs.
