

# PUBLIC HISTORY, MINOR

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

## Program Description

The Public History Minor combines history, management, education, communication, civic engagement, and marketing skills, all needed by staff and leaders at museums, historical sites, and in other cultural work. It will help prepare students to foster cultural revitalization in communities, work in philanthropy, and support corporate and non-profit archival and history programs. It will also prepare students to seek the Master's Degree in Public History. The minor's large variety of qualifying courses will invite students in many disciplines to consider doing meaningful civic work with a historical flavor.

## Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
