

VISUAL ART STUDIES, B.A.

Begin Campus: Any Penn State Campus

End Campus: Altoona

Program Description

The Bachelor of Arts degree in Visual Art Studies offers students the opportunity to explore studio work in Art within the context of a broader liberal arts education. Students can learn fundamental techniques and concepts common to the Visual Arts. Emphasis is also put on creative problem solving through advanced investigations of artistic themes and issues. Coursework includes requirements (classes) related to the portfolio preparation necessary for employment in creative fields or for education at the graduate level.

What is Visual Art Studies?

Visual arts studies is the creative, theoretical, and critical exploration of making images, objects, and ideas through various artistic media. Visual Art Studies may be a good fit for you if you are happiest drawing, painting, sculpting, designing, working with the computer or performing in unique ways. If you don't have a lot of experience making art—no worries! Maybe you enjoy looking at art or writing or reading about it? Visual Art Studies may be for you! There are no required skillsets or portfolio reviews required for admission into Visual Art Studies. The faculty are experienced at introducing an array of tools, materials, and methods to beginning students.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (<https://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program/>) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary

academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
