

MUSEUM STUDIES, CERTIFICATE

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Museum Studies Certificate program is designed to be an interdisciplinary introduction to theory and practice of museums, historic sites and other public collections. It is open to undergraduate students in any major and prepares them for higher-level pre-professional study in the field.

What is Museum Studies

The museum studies certificate offers you the opportunity to learn about museums, from their history to how they work. Museum studies encompasses all types of museums, and you can tailor your classes to focus on such places as art museums, history museums, house museums, science and technology museums, fashion and product museums, or sports museums. The certificate uses courses and internship experience to give you both theoretical and hands-on knowledge of museums.

You Might Like This Program If...

You enjoy going to museums, are curious about how they work, and are interested in museum careers.
