The Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The bachelor of science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice and who require a high degree of flexibility to obtain their educational objectives. After completing foundation courses in calculus, chemistry, physics, and the life sciences, students will select additional science courses from designated areas. A large number of supporting credits permit students to readily include significant breadth or specialization into their undergraduate curriculum. Some examples include minors in business, computer and information science, education, kinesiology, or other fields. The degree allows students throughout the Commonwealth to become familiar with both the theory and the practice of science. It can help prepare students for various careers in pharmaceutical, biotechnical, chemical, medical, and agricultural industries. The degree can also be tailored to meet the specific requirements of professional programs such as medical, dental, or pharmacy schools. The General Science option of the B.S. Science degree allows for the most flexibility. Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered:

- Biological Sciences and Health Professions Option
- Legal Studies, Government Service, Public Policy Option
- Life Sciences Option
- Mathematical Sciences Option
- Physical Sciences Option

Not all of these options are available at all locations, and there are minor distinctions of the core curriculum at some locations, so see the Science program director at your College for further details.

### Two-Year Preprofessional Preparation

The first two years of the Science major (62 credits) can meet the pre professional needs of those interested in admission to some schools of pharmacy, physical therapy, optometry, and physician assistant training. Successful students can then transfer after two years of undergraduate study to the professional school to which they are admitted. Note, however, that no Penn State degree can be awarded after only two years (62 credits) of study in the Science major. Also, note that the abbreviated two-year curriculum alone does not prepare students for admission to professional schools of general medicine, veterinary medicine, or dental medicine. Consult with your college's health sciences professional adviser for additional information.

### What is Science?

The Science major provides a broad and interdisciplinary foundation in the natural sciences. The Science BS program uses the principles of chemistry, physics, and life sciences to understand how these integrate over general areas including biological sciences and health professions, public policy, and science research and development.

### You Might Like This Program If...
- You like learning by doing hands-on experiments.
- You are curious about the natural world and how science disciplines come together to explore and understand it.
- You are intrigued by science and desire a career in current and emerging interdisciplinary science disciplines, health professions, or melding science with law, policy or business.

In order to be eligible for entrance to the Science major, a student at any location must have:

1. attained at least a 2.00 cumulative grade-point average;
2. completed MATH 140 with a grade of C or better;
3. completed at least two of the following courses, BIOL 110; CHEM 110; PHYS 211 or PHYS 250, with a grade of C or better.

### Degree Requirements

For the Bachelor of Science degree in Science, a minimum of 124 credits is required, with at least 15 credits at the 400 level:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

### Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

### Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

### Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

15 of these 45 credits are included in the Requirements for the Major.
University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Engagement Plan; colleges and campuses that do not require a First-Year Engagement Plan provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 15 credits of General Education courses: 9 credits of GN courses, 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by their college First-Year Engagement Plan.

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Requirements for the Option

General Science Option (74 credits)
A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.

Code Title
---
BIOL 129 Mammalian Anatomy
BIOL 220W Biology: Populations and Communities
BIOL 230W Biology: Molecules and Cells
BIOL 240W Biology: Function and Development of Organisms
BIOL 141 Introductory Physiology
& BIOL 142 and Physiology Laboratory
Select 3-4 credits of the following: 3-4
STAT 200 Elementary Statistics
STAT 250 Introduction to Biostatistics
STAT 301 Statistical Analysis I
STAT 401 Experimental Methods
Select 8-12 credits of the following: 8-12
PHYS 211 General Physics: Mechanics
& PHYS 212 and General Physics: Electricity and Magnetism
& PHYS 213 and General Physics: Fluids and Thermal Physics
& PHYS 214 and General Physics: Wave Motion and Quantum Physics

Supporting Courses and Related Areas
Select 21-26 credits from program list (Students may apply 6 credits of ROTC)
Select 3 credits from earth and mineral sciences 3
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser
Select 6 credits of 400-level courses 6

Supporting Courses and Related Areas: Require a grade of C or better
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level 2

1. PHYS 211 and PHYS 250 require a grade of C or better.
2. Physical sciences include ASTRO, CHEM, PHYS; mathematical sciences include CMPSC, MATH, STAT; life sciences include BIOL, BIOTC, BMB, MICRB.

Biological Sciences and Health Professions Option (74 credits)
A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.

**Additional Courses**

Select 4 credits of the following:

- BIOL 129 Mammalian Anatomy
- BIOL 220W Biology: Populations and Communities
- BIOL 230W Biology: Molecules and Cells
- BIOL 240W Biology: Function and Development of Organisms
- BIOL 141 Introductory Physiology
- & BIOL 142 and Physiology Laboratory
- STAT 200 Elementary Statistics
- STAT 250 Introduction to Biostatistics
- STAT 301 Statistical Analysis I
- STAT 401 Experimental Methods
- PHYS 211 General Physics: Mechanics
- & PHYS 212 and General Physics: Electricity and Magnetism
- & PHYS 213 and General Physics: Fluids and Thermal Physics
- & PHYS 214 and General Physics: Wave Motion and Quantum Physics
- PHYS 250 Introductory Physics I
- & PHYS 251 and Introductory Physics II

**Supporting Courses and Related Areas**
Select 21-26 credits from program list (Students may apply 6 credits of ROTC)
Select 3 credits from earth and mineral sciences
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser
Select 6 credits of 400-level courses

**Supporting Courses and Related Areas: Require a grade of C or better**
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level

1. PHYS 211 and PHYS 250 require a grade of C or better.
2. Physical sciences include ASTRO, CHEM, PHYS; mathematical sciences include CMPSC, MATH, STAT; life sciences include BIOL, BIOTC, BMB, MICRB.
Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses

Supporting Courses and Related Areas: Require a grade of C or better
department approved course list in consultation with adviser

Select 3 credits in Global, Social, and Personal Awareness from

Select 10-17 credits from program list (Students may apply 6 credits toward credits for graduation.

Select 3-4 credits of the following:

Supporting Courses and Related Areas
Select 15 credits from program list for Healthcare/ Medicine/Ethical Competencies
Select 10-17 credits from program list (Students may apply 6 credits of ROTC)
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser
Supporting Courses and Related Areas: Require a grade of C or better
Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses

Legal Studies, Government Service, Public Policy Option (74 credits)

Additional Courses
Select 4 credits of the following:

Supporting Courses and Related Areas
Select 18 credits from program list for Legal Studies, Government Service, Public Policy
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser
Supporting Courses and Related Areas: Require a grade of C or better
Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits at the 400 level

Life Science Option (74 credits)
A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.

Additional Courses
Select 4 credits of the following:

Supporting Courses and Related Areas
Select 18 credits from program list for Legal Studies, Government Service, Public Policy
Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser
Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser
Supporting Courses and Related Areas: Require a grade of C or better
Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses

1 Six credits must be at the 400-level. Select from department approved course list in consultation with adviser.
2 PHYS 211 and PHYS 250 require a grade of C or better.
toward credits for graduation. A maximum of 12 credits of Independent Study may be applied toward credits for graduation.

Select 3 credits of the following:
- STAT 301 Elementary Biochemistry
- BMB 251 Molecular and Cell Biology I
- MICRB 201 Microbiology

Select 6-8 credits of the following:
- CHEM 202 Fundamentals of Organic Chemistry I
- & CHEM 203 Fundamentals of Organic Chemistry II
- CHEM 210 Organic Chemistry I
- & CHEM 212 Organic Chemistry II
- & CHEM 213 Laboratory in Organic Chemistry

Select 8-12 credits of the following:
- PHYS 211 General Physics: Mechanics
- & PHYS 212 and General Physics: Electricity and Magnetism
- & PHYS 213 and General Physics: Fluids and Thermal Physics
- & PHYS 214 and General Physics: Wave Motion and Quantum Physics

Supporting Courses and Related Areas
Select 9 credits of 400-level CMPSC, CSE, MATH, or STAT courses

Supporting Courses and Related Areas: Require a grade of C or better

Mathematical Science Option (74 credits)
A maximum of 12 credits of Independent Study may be applied toward credits for graduation.

Code | Title | Credits
--- | --- | ---

Select 18-24 credits from program list (Students may apply 6 credits of ROTC)

Select 3 credits in Teamwork and Interpersonal Communication

Select 3 credits in Global, Social, and Personal Awareness

Select 9 credits of 400-level CMPSC, CSE, MATH, or STAT courses
Accelerated Science B.S./M.B.A. Program (SCBUS_BS)

Students must begin and complete the Accelerated Science B.S./M.B.A. Program at the University Park campus.

Students admitted to this special cooperative program between the Eberly College of Science and The Smeal College of Business will be able to combine a Bachelor of Science degree in the Science major, with a Master of Business Administration degree. Highly motivated students, who enter the University with a sufficient number and proper distribution of AP credits, will have the opportunity to complete the requirements for both programs within five years.

What is the Accelerated Science B.S./M.B.A. Program?
The Accelerated Science B.S./M.B.A. Program is designed to educate the leaders in scientific industry, by providing students with a rigorous science background and undergraduate degree along with a graduate degree in business administration.

You Might Like This Program If...
• You love studying science, but don’t necessarily want a career in a laboratory.
• You enjoy coursework in multiple science disciplines and in business.
• You aspire to leadership roles.
• You enjoy working with others on a daily basis.
• You want the opportunity to move into a leadership role early in your career.

Program Requirements
The B.S. degree in the Science major General Science option, will be conferred upon satisfactory completion of:

1. The first semester of course work in The Smeal College of Business M.B.A. program (i.e., a minimum of 12 graduate credits).
2. A minimum of 112 acceptable undergraduate credits, which must include:

| SC 395 | Science Co-op Work Experience II 3 |
| SC 495 | Science Co-op Work Experience III 3 |

| ECON 102 | Introductory Microeconomic Analysis and Policy | 3 |
| ECON 104 | Introductory Macroeconomic Analysis and Policy | 3 |
| ACCTG 211 | Financial and Managerial Accounting for Decision Making | 4 |

Select supporting courses and related areas selected from the program list 4-23

1 The University’s General Education requirements in the areas of Writing and Speaking (9), Health and Physical Activity (3), Arts (6), Humanities (6). The University’s General Education requirements in the areas of Quantification, Natural Sciences, and Social and Behavioral Sciences will be satisfied by course work listed under headings “c” and “f.”

2 These requirements may be double counted in order to satisfy other requirements in the program.

3 Students must complete three Eberly College of Science Cooperative Education experiences, including at least one experience which is a full semester in length.

Career Paths
Graduates with a B.S. in Science and a Master’s degree in Business Administration have successfully established careers in the science and business industries. Graduates of this unique integrated undergraduate—graduate program (IUG) are equipped to step into leadership roles instead of the more common entry-level positions of their peers. This accelerates the careers of our graduates, which leads to greater impact and higher earning potential over a lifetime.

Careers
Graduates of the B.S./M.B.A. program have pursued careers in a number of industries including, but not limited to the following:
• Consulting
• Finance
• Healthcare
• Manufacturing
• Marketing
• Medical Devices
• Pharmaceuticals
• Technology

MORE INFORMATION (http://science.psu.edu/bsmba/program-information/potential-employers)

Opportunities for Graduate Studies
For more information on the M.B.A curriculum, please visit the Smeal College of Business website (https://mba.smeal.psu.edu).

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
Harrisburg Campus
General Option
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

400-Level Life, Mathematical, or Physical Science course

Mathematical Science: CMPSC, MATH, STAT

Earth and Mineral Science course

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

University Requirements and General Education Notes:
- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

Program Notes:
- This outline is only a suggested recommended academic plan. There is considerable room for adjusting the necessary courses to fit your individual needs and goals. For example, a student may take CHEM 110 along with CHEM 111 during semester 1, in which case the student may then take CHEM 112 along with CHEM 113 during
semester 2. Another example, a student could choose to take a world language course during other/earlier semesters, such as semester 1 and 2. Remember, most students only have to average about 16 credits per semester to graduate in four academic years (or eight semesters). The Science major require a total of 124 credits.

- Do not overlook the opportunity for Independent Study/Research credit, Cooperative Education, or Study Abroad Opportunities.

- For the various supporting/elective courses each student is required to complete the major, one should consider completing a sequence of courses from the same department/program as opposed to completing all introductory courses from many different departments/programs. Students can even consider completing a minor in another academic discipline with the various supporting/elective courses and any 400 level course work needed.

- For additional information such as the Teamwork and Interpersonal Communications approved course list (List 1), Global, Social, and Personal Awareness approved course list (List 2), Supporting/elective Program List and other FAQs please visit the following Web site www.science.psu.edu/sciencesbs.

### Life Science Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular time. This plan should be used in conjunction with your degree audit.

#### First Year

| * Course requires a grade of C or better for the major |
| † Course satisfies General Education and degree requirement |
| ‡ Course requires a grade of C or better for General Education |
| # Course is an Entrance to Major requirement |

1. BIOL 220W - Biology, Populations and Communities
   For BIOL 220W, BIOL 230W or BIOL 240W to count as a Writing Across the Curriculum requirement, this course must be completed.
   BIOL 230W - Biology: Molecules and Cells
   For BIOL 220W, BIOL 230W or BIOL 240W to count as a Writing Across the Curriculum requirement this course must be completed.
   BIOL 240W - Biology: Function and Development of Organisms
   For BIOL 220W, BIOL 230W or BIOL 240W to count as a Writing Across the Curriculum requirement this course must be completed.

2. Select from the Following:
   - CMPSC 121 - Introduction to Programming Techniques
   - MATH 230 - Calculus and Vector Analysis
   - MATH 250 - Ordinary Differential Equations
   - STAT 200 - Elementary Statistics
   - BMB 211 - Elementary Biochemistry
   - BMB 251 - Molecular and Cell Biology
   - MICRB 201 - Introductory Microbiology, Students are strongly recommended to schedule MICRB 202 with MICRB 201
   - PHYS 250 - Introductory Physics, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214
   - PHYS 211 - General Physics: Mechanics, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214
   - PHYS 212 - General Physics: Electricity and Magnetism, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214
   - PHYS 251 - Introductory Physics II, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214
   - Select 3 credits from 400-level Science courses, select from BMB, BIOL, BIOTC, MICRB
   - PHYS 213 - General Physics: Fluids and Thermal Physics, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214
   - PHYS 214 - General Physics: Wave Motion and Quantum Physics, select from either PHYS 250 and 251 or PHYS 211, 212, 213 and 214

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Career Paths**

Penn State students with a BS in Science are prepared for a broad range of careers and graduate programs. The solid foundation of science and math prepares students to think critically and scientifically in a range of industries and professions.

**Careers**

This program often leads to careers in all healthcare professions, including physicians and physician assistants, dentists, optometrists, and podiatrists; laboratory research associates; scientific product representatives and science-based consulting.

**Opportunities for Graduate Studies**

Many graduates of the Science B.S. program choose to pursue graduate studies (MS and PhD) in the natural sciences. Most often, students gravitate to medically-related fields and life science sub-disciplines for focused graduate training. Students in the legal studies and public policy options may choose law school or master’s in public policy programs.
