

# ENTERPRISE TECHNOLOGY INTEGRATION, B.S. (INFORMATION SCIENCES AND TECHNOLOGY)

---

**Begin Campus:** Any Penn State Campus

**End Campus:** University Park, World Campus

## Program Learning Objectives

1. **Knowledge Application:** Understand and apply the interdisciplinary, theoretical knowledge of enterprise technology integration (ETI)
  - a. Define and explain the core concepts, principles, processes, and theories within the academic major
  - b. Apply the core concepts of ETI to real-world problems
2. **Problem Solving:** Understand, apply and adapt various problem solving strategies, using appropriate technology and methods
  - a. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions
  - b. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation
  - c. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world)
  - d. Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information-based solution
  - e. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world)
3. **Communication:** Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media
  - a. Participate effectively on teams in order to accomplish a common goal
  - b. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word
  - c. Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people
  - d. Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identify, or veteran status)
4. **Professional Responsibilities:** Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution
  - a. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem
- b. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.
5. **Lifelong Learning:** Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning
  - a. Employ information-seeking strategies and self-directed learning in pursuit of current knowledge
  - b. Enroll in professional development and tutoring opportunities
