# RADIOLOGICAL SCIENCES, A.S.

Begin Campus: New Kensington, Schuylkill

End Campus: New Kensington, Schuylkill

## **Program Learning Objectives**

## **New Kensington Campus**

**Practice as Entry Level Technologists** 

- 1. The student will provide proper radiation protection.
- 2. The student will demonstrate proper positioning skills.
- 3. The student will evaluate diagnostic images.

#### **Effectively Communicate in the Healthcare Environment**

- 1. The student will demonstrate effective written communication skills.
- 2. The student will provide effective oral communication skills.
- 3. The student will treat patients with compassion.

#### Think Critically and Apply Problem Solving Skills in the Healthcare Environment

- The student will manipulate technical factors to produce diagnostic images.
- 2. The student will modify procedures to meet patient needs.

# Understand and Promote the Importance of Professional Growth and Development

- 1. The student will demonstrate professional behavior and participate in professional organizations.
- The student will develop a career portfolio and plan for compliance within the profession.

## **Schuylkill Campus**

### Students will communicate effectively in the clinical setting

- 1. Students will use effective oral communication skills
- 2. Students will practice written communication skills

# Students will demonstrate clinical competence consistent with an entry level radiographer

- 1. Students will apply radiographic positioning skills
- 2. Students will select appropriate technical factors
- 3. Students will demonstrate radiation protection

## Students will gain an awareness of the importance of professional growth and development

- 1. Students will demonstrate knowledge of professional societies.
- Students will research and present advancements in medical imaging.

#### Students will demonstrate critical thinking and problem-solving skills

- 1. Students will adequately provide age appropriate patient care
- 2. Students will exercise independent judgment and discretion in the technical performance of medical imaging procedures

3. Students will successfully complete trauma and multi-case competencies
